REGISTER

https://seqera.typeform.com/nfcoremarch2025

WHEN

MARCH
24-26
9:00 a.m. – 5:00 p.m.

Please register by March 23, 2025

This will be a three-day, in-person event. Lunch and drinks will be provided.

The nf-core hackathon is a collaborative event where bioinformaticians come together to develop and improve nf-core pipelines, modules and related tools. At the event, you can anticipate:

- **Collaborative Projects**: Engage in tasks such as adding new features to existing pipelines, creating new pipelines or enhancing documentation.
- **Skill Development**: Opportunities to learn and apply new bioinformatics tools and techniques in a supportive environment.
- **Networking**: Connect with professionals and enthusiasts in the field, both locally and globally.
- **Community Engagement**: Participate in virtual sessions, discussions and social activities with participants from other locations.
- **For More Information**: https://nf-co.re/events/2025/hackathon-march-2025/university-of-miami
